NEW REAL WAX CANDLES COLLECTION

INTRODUCTION

STUNNING REALISM

**TRUE-FLAME
TECHNOLOGY®**

SAFE AT HOME

Cocoon Flameless Candles are stunningly realistic and our patented TRUE-FLAME Technology® makes them virtually indistinguishable from the real thing.

And whilst our three-dimensional flame will never burn out, Cocoon Flameless Candles are cool to the touch and completely safe in the home and around children and pets.

Every house and home is unique, different and a reflection of one's own personal style and character. Cocoon is no different and we offer a broad range of flameless candles styles and designs unmatched anywhere else.

Our Cocoon range includes classic wax candles in simple colours such as ivory and coffee, contemporary mosaic glass designs in subtle muted tones and seasonal candles fit for any festive occasion.

THE DIFFERENCE

TRUE-FLAME TECHNOLOGY®

Our patented TRUE-FLAME Technology® makes Cocoon Flameless Candles virtually indistinguishable from the real thing – accurately replicating the three dimensional shape, colour and flicker of a real flame.

THE LONG LASTING FLAMELESS CANDLE

Cocoon Flameless Candles will last up to 350 hours and come with premium quality long life batteries, so you can use them straight away.

Our long life batteries combined with our 4 hour timed cycle mean your Cocoon Flameless Candles can last for up to three months on one set of batteries.

SPARQ REMOTE CONTROL

Our innovative SPARQ Remote Control works with any Cocoon Flameless Candle and enables you to place candles in hard to reach places yet switch them on and off easily.

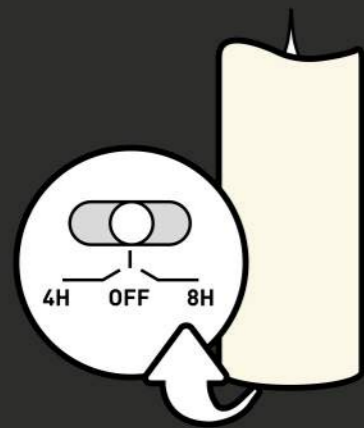

SPARQ means you can set your candles to run on a 2, 4, 6 or 8 hour timed cycle, dim or brighten the flame and change the flame from flicker to static.

SAFE AROUND THE HOME

If you long for the glow that real candles create, but worry about the safety of candles in the home, Cocoon is the answer.

Our three-dimensional flame will never burn out, always remains cool to the touch and is completely safe around the home, children and pets.

THE ADVANTAGE

COCOON TIMER FUNCTION

- Automatic timer function
- Set for 4 or 8 hours
- Activates for same time every day when set

TRUE-FLAME TECHNOLOGY®

- 360° flame
- Completely random flicker
- Looks like a real candle from all angles

MULTI HUE FLICKER

- Multi hue flicker technology emulates the colour tones of a real candle
- Transitions from blue to amber to white

SPARQ REMOTE CONTROL SYSTEM

- On/off switch
- Timer can be set for 2, 4, 6 or 8 hours
- Dimmer function
- Light mode changes flame from flicker to static

Cocoon Flameless Candles will last up to 350 hours and come with premium quality long life batteries, so you can use them straight away.

Our long life batteries combined with our 4 hour timed cycle mean your Cocoon Flameless Candles can last for up to three months on one set of batteries.

SCALLOPED TOP LED CANDLE IVORY RANGE

SCALLOPED TOP IVORY RANGE

The Cocoon real wax candle uses innovative COLOUR-HUE Technology with a unique three-dimensional flame that replicates the colour of a natural flame.

Each ivory pillar candle has a wax casing with a melted scalloped top that offers a lifelike look. The scalloped top makes this candle perfect for table and centrepiece decorations as you can see the flame from every angle.

The candle comes with 2 x C-cell batteries, ready for use.

SPECIFICATIONS

- **Extended battery life** – up to 350 hours
- **Safer than a real candle** – perfect for those with children or pets
- **Patented COLOUR-HUE Technology** – produces a flame that randomly varies in movement, colour and brightness, making it indistinguishable from a real flame
- **SPARQ enabled** – can be used with our SPARQ Remote Control which offers additional features
