## TEAK

A UNIQUE CHARACTER, teakwood, a close-grain and oil-rich hardwood, is especially stable in its recycled form after being used for decades and is, therefore, an ideal material to produce longlasting furniture pieces.

The mark of  
responsible forestry  
FSC® C047286

## QUALITY

Quality is essential to the growing success of the brand.

**Cocoon** is one of the world's leading manufacturers of eco friendly quality outdoor furniture. We use only the best weather resistant materials and hand finish every piece to ensure trouble free use, even in the harshest conditions.

## ECOLOGICAL AND SOCIAL RESPONSIBLE

Sunteak has a passion for community and humanity. Building a genuine culture of 'doing the right thing' within our corporation is an essential part of who we are. We feel responsible to society as a whole.

## BUILDING A GENUINE CULTURE OF 'DOING THE RIGHT THING' WITHIN OUR CORPORATION IS AN ESSENTIAL PART OF WHO WE ARE.

We feel responsible to society as a whole. Our company programs include: Workplace Health and Safety, Diversity and Inclusion, Support local Communities, Employee Groups, Ethics and Compliance, Sourcing, Laws and regulation, etc.

# Build A Product

We are partnership with some manufacturer and equipped by modern machinery and supported by an experienced artisans and skilled work force, **Cocoon** assures a high quality product and timely delivery. From 3D drawings and mock set approvals we assist you in every step until the project completion. **Cocoon** offers an extensive product line itself from which to choose from. All created in house by our ingenious & creative designers. Our expert team has the know-how and the determination to face any design challenge head-on and deliver a product that's as inimitable as it is beautiful. In fact, our goal is to assimilate our custom furnishings into any environment-and any decoration-as naturally, tastefully and efficiently as possible.

# Designer

## PHILOSOPHY AND DESIGN PROCESS

Quality is not and act is a habit "*aristoteles*"

Romano Assaidi  
Designer

Romano Assaidi began his journey on Furniture Industries at a young age. He starts business at 20 years old. Working on German company in Malang, East Java as Field Manager. He found his interest doing design after 10 years in Industries of OEM business. By creating his own signature line of modern furniture.

"Great things with in house production is we can play as much as we want with different materials and develop new idea to see how its works at very best application," Romano Assaidi.

We are looking to expand our business with looking for partnership in Europe, US and around the world.

Finn Ostergaard  
Designer

Together with the highly recognised and award winning furniture architect, Finn Ostergaard, educated at The Royal Danish Academy of Fine Arts in Copenhagen and creator of the Albert Chair, Sunteak Living is currently working on bringing together the best of two worlds. The brilliance of Ostergaard's drawing skills and our superior quality. Recently, Ostergaard has won both gold and silver at the CIFF fair.

A photograph of an outdoor dining set on a patio. The set includes a square wooden table and four wooden chairs with light-colored cushions. On the table, there is a yellow mug on a saucer, a dark plate, and some fruit. The patio is paved with light-colored stone tiles. In the background, there is a white brick wall, a grey door, and a large, rounded green bush. The text "FRIDAY COLLECTION" is overlaid on the image in a white, sans-serif font.

## Natural Teak

Teak is a close-grained hardwood with uniquely high natural oil content. Teak is exceptionally hard wearing, highly resistant to rotting and almost impervious to the effects of sun, rain, frost, or snow. For these reason, teak is the first choice timber for outdoor furniture. Only premium grade plantation grown teak is used in Sunteak furniture. The feature of premium grade teak are consistent grain structure, the absence of knots, splits or cracks. All teak furniture comes in natural smooth finished.

## Weathered Teak

All SUNTEAKLIVING Teak collection are available in 2 finished, natural sanded and weathered finished.

The weathered teak finish is intended to be a maintenance free finish but some cleaning over time will be needed. Spring, summer and early fall this bench sat in a wooded area under oak, hickory and gum ball trees. It was not cleaned for 6 months.

Black dots, yellowing, dark streaks and even insects & bugs are part of this products response to extreme outdoor conditions of rain, heat and sun light.

#Black dots are easily cleaned with teak cleaner. Black dots are not to be considered a defect.

#Yellowing is the aging of the natural wood under the weathered finish. This will fade away once exposed to the sun.

## Reclimed Teak

Recycle teak is especially resistant to weathering after being used for decades and is therefore ideal material to produce long lasting furniture pieces. Come from neglected and no longer in used buildings scattered around the island of Java. Re-using this wood instead of cutting new trees are also another concern of how our design should be done.

Each pieces are unique and have unique cracks nots, holes from bolt and occasional corrosion stains from building marks give each pieces stunning looks.

## Finger Joint Laminated Teak

Another commitment of SUNTEAKLIVING is also re used of our waste, in this case we have many of Teak scattered in small pieces with various size. By able manage this waste we can offer new alternative of table top finished in our collection. All wood are carefully selected according to grain and age then finger-jointed and laminated with strong adhesive, perfect for outdoor used with unique look.

Finished :  
Brushed

Our Recycle and FJL tops are finished in special Brushed finished to give weathered look.

# Teak

---

Not only beautiful but also durable. Our Selected materials will last for decade.

When choosing exactly the right outdoor furniture for your particular needs, function is just as important as style.

In the following pages we have listed details of the various materials and fabrics we use for our furniture to help you

plan your selections in detail.

Production processes and materials are selected on the following criteria:

- weather resistance,
- easy maintenance,
- care for the environment and
- prime quality.

# STAINLESS STEEL 304

-----  
Brushed Hairline 304  
-----

All our stainless steel items are made of from 304 grade stainless steel - the industry standard for outdoor seating products. The standard brushed finished provides a smooth, resistant surface that is as appealing to the touch as it is easy to clean and maintain.

# WICKER

## ----- A NATURAL LOOK -----

This woven artificial fiber comes in natural colors and in different styles. It is tear resistant, UV resistant as well as being color fast. The material is withstanding extremes of hot and cold, wet and dry, with no deterioration. Its imperviousness to water ensures that the wicker material maintains its strength and structure. Thanks to its non-toxic character and lack of sharp edges, it is completely safe.

(a complete sheat that has to be sewed all around)  
as a cover
4. 1st layer of Dacron Hollofil ( only wrap)
5. 2nd foam
6. 1st foam
7. high tenacity polyester yarn  
for drainage

# The SUNTEAKLIVING Fabric & Cushion Treatments

Our Standard Cushions are composed of bonded fiber layers on top of polyurethane foam, making them exceptionally comfortable. The ratio of foam to fiber is 50% to 50% once core is inserted into the fabric cushion slip. We offer a series of covers made from textiles leading manufacturer of outdoor textiles : Sunbrella and Serge Ferran.

High performance thread are sealed preventing water penetrating the core, support with high quality zipper that allows foam to be dried easily in case any water gets inside.

All SUNTEAKLIVING fabrics are designed specifically for outdoor use and are naturally resistant to stains and fading. Prior to cleaning, we strongly recommend contacting the fabric manufacturer for specific cleaning instructions. Many household cleaning agents are harmful to the color and life of a fabric, and cleaning instructions can vary depending on the nature of the stain.
